DETAILED ACTION

1 Claims 1-29, 35-37 have been cancelled by Applicant.

Continued Examination Under 37 CFR 1.114

2 The request for a continued prosecution application (CPA) under 37 CFR 1.53(d) filed on 5/24/2002 is acknowledged. 37 CFR 1.53(d)(1) was amended to provide that the prior application of a CPA must be: (1) a utility or plant application that was filed under 35 U.S.C. 111(a) before May 29, 2000, (2) a design application, or (3) the national stage of an international application that was filed under 35 U.S.C. 363 before May 29, 2000. *See Changes to Application Examination and Provisional Application Practice*, interim rule, 65 *Fed. Reg.* 14865, 14872 (Mar. 20, 2000), 1233 *Off. Gaz. Pat. Office* 47, 52 (Apr. 11, 2000). Since a CPA of this application is not permitted under 37 CFR 1.53(d)(1), the improper request for a CPA is being treated as a request for continued examination of this application under 37 CFR 1.114. *See id.* at 14866, 1233 *Off. Gaz. Pat. Office* at 48.

An action on the RCE follows.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1773

4. Claim 34 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 34 recites the limitation "and biodegradable layer (3)". There is insufficient antecedent basis for this limitation in the claim.

In claim 34, the phrase "based on same thickness, respectively" is unclear and confusing. Respective to what? The other layers or the laminated film?

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 30-33, 35 are rejected under 35 U.S.C. 103(a) as being unpatentable over MATSUDAIRA ET AL (US 6,096,431).

MATSUDAIRA ET AL discloses a biodegradable laminate comprising two or more layers of different biodegradable polymers. In one instance, the disclosed base material comprises two different polylactide polymers (lines 38-45, col. 3) and in another instance, a polylactide base material is coated with a modifying biodegradable polymer such as polycaprolactone (lines 10-37, col. 4; lines 46-60, col. 5) as recited in claims 30-32, wherein the

Art Unit: 1773

laminate is suitable for forming containers or trays (lines 53-62, col. 12). However, the reference does not explicitly disclose coextruded films.

It would have been obvious to a person of ordinary skill in the art at the time the invention was made to utilize a conventional method of forming multilayer films such as coextrusion as indicated in claim 33 to form the multilayer base material as disclosed in MATSUDAIRA ET AL. It is also well known in the art to use biodegradable articles, such as the containers or trays as disclosed in MATSUDAIRA ET AL, in agricultural or gardening applications as indicated in claim 35.

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vivian Chen whose telephone number is (703) 305-3551. The examiner can normally be reached on Monday from 8:30 AM to 6 PM. The examiner can also be reached on alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Thibodeau, can be reached on (703) 308-2367. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9310 (for non-after finals) and (703) 872-9311 (for after-finals).

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.
